DETAIL CHART UPDATE MANUAL

27th April 2015

* The Detail chart is used to keep a track of all the developments for each season to track the buy ready on time and this document is common document that can be used by the internal teams.

*The Detail chart is an Internal document. This **must not be shared** with external parties/customers.

*Updating and having **clear details on the Detail Chart is very important** as the final chart will be followed by all related cross functional teams.
(Marketing operations/ development/ dye/ material/ embellishment/ QA)

- Detail chart must be initial created from Concept sampling stage.
- The chart will be created by Development Merchandiser for every season
- The chart needs to be updated with every change and checked every day for any changes.
- Areas highlighted in Yellow will be updated by the development Merchandiser.

- Once development Merchandiser updates the chart need to share with the internal teams every Wednesday after the Buy ready meeting.
- Responsibility for having updated details on the detail chart is with the Development Merchandiser.
- Development Merchandiser needs to make sure that the details chart is completed when P BOM is received.
- Responsibility of saving the detail chart on the common folder is with the Senior Merchandiser.
- The chart must be updated by the respective merchandiser and forwarded to the Senior Merchandiser for distribution & to avoid any confusions.
- The development merchandiser is responsible for maintaining parallel Detail charts for the running seasons at hand.
- The document is saved on the shared folder for easy access for all teams.
- **Very important – For style handover the Detail chart needs to be 100% accurate otherwise the development Merchandiser will not archive the KPI.**
